Princess Drive  
Thurnscoe, Rotherham  
S63 0BL

Company Director WS Civil Engineering

I would like to take this opportunity to thank all the staff from WS Civil Engineering who were involved in the recent remedial works, and the previous installation and commissioning works on the South Erewash re-signaling scheme.

You're in put and attitude to the works were first class along with your planning and execution of your duties. The bases that you installed are of exceptional quality along with all associated works that you were requested to carry out, although the programmed Works were to a very tight time scale you achieved and beat the programme with a 100% safety record.

I would recommend you as a company to carry out civil installation works with out reserve

Regards
